**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE  
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

In the Matter of U.S. Application Serial No.: 86/816,074  
For the Mark: AUTONOMIC ADVANTAGE  
Published in the *Official Gazette*: May 10, 2016

AUTONOMIC TECHNOLOGIES, INC.,

Opposer,

v.

AUTONOMIC RECOVERY, LLC,

Applicant.

Opposition No. \_\_\_\_\_

**NOTICE OF OPPOSITION**

Opposer Autonomic Technologies, Inc. (“Autonomic Technologies”), a Delaware corporation, with its principal place of business at 3698 Haven Avenue, Suite C, Redwood City, California 94063, believes that it will be damaged by registration of the mark AUTONOMIC ADVANTAGE in International Class 10, as set forth in Application Serial No. 86/816,074, filed by Autonomic Recovery, LLC (“Applicant”), an Arizona limited liability company, with an address of 4252 N. Verrado Way, Suite #103B, Buckeye, Arizona 85396, and, having been granted an extension of time to oppose up to and including September 7, 2016, hereby opposes the registration of International Class 10 pursuant to 15 U.S.C. §§ 1052 and 1063.

As grounds for the opposition, Autonomic Technologies alleges that:

1. Autonomic Technologies is a medical device company focused on the development and commercialization of innovative therapies for the treatment of severe headache. The company’s initial product, a neurostimulation system, is approved in Europe

for the treatment of cluster headache, and is currently in clinical trials at headache treatment centers throughout the United States. Autonomic Technologies provides its products and services under the mark AUTONOMIC TECHNOLOGIES, and derivative marks.

2. Opposer is the owner of the following federal trademark registrations, issued by the U.S. Patent and Trademark Office (the “USPTO”), consisting of or incorporating the term AUTONOMIC:

a. U.S. Registration No. 4,240,778, registered on November 13, 2012,

for the design mark  for “research and development, namely, design, engineering and testing, of medical devices for the management and treatment of neurological disorders” in International Class 42 (an electronic copy of the registration certificate and the USPTO’s TSDR status record for this registration are attached hereto as Exhibit A);

b. U.S. Registration No. 4,660,297, registered on December 23, 2014,

for the mark  for “Medical devices for treating and managing neurological disorders, neurostimulators for medical use and parts and fittings for all the aforesaid goods.” in International Class 10 (an electronic copy of the registration certificate and the USPTO’s TSDR status record for this registration are attached hereto as Exhibit B);

(collectively, the “AUTONOMIC Marks”).

3. The AUTONOMIC Marks are valid, have not been abandoned by Autonomic Technologies, and are in full force and effect.

4. Since at least as early as 2009, Autonomic Technologies has been, and is now, using the AUTONOMIC Marks in interstate commerce, throughout the United States, in connection with the sale, offer for sale, transport, advertising, marketing, and promotion of its medical devices and its research and development services.

5. Autonomic Technologies’ use of each of the AUTONOMIC Marks

has been valid and continuous since the dates of first use identified in its corresponding registration.

6. Autonomic Technologies has built up significant industry and consumer recognition of the AUTONOMIC Marks through its substantial investments in time, money, and resources in advertising, marketing, and promoting the goods and services sold under the Marks. As such, Autonomic Technologies' AUTONOMIC Marks have come to serve as a unique identifier of Autonomic Technologies' goods and services.

7. As a result of Autonomic Technologies' widespread, continuous, and exclusive use of the AUTONOMIC Marks in interstate commerce, the AUTONOMIC Marks have acquired extensive and valuable goodwill and are recognized as identifying high quality goods and services that have their origin with Autonomic Technologies.

8. On November 11, 2015, Applicant filed an application to register the mark AUTONOMIC ADVANTAGE under Application Serial No. 86/816,074, for "Electrotherapy devices for providing transcutaneous electrical nerve stimulation, infrared heat and compression" in International Class 10, based on Applicant's intent to use the mark in connection with these goods. Applicant's Application Serial No. 86/816,074 also identified additional goods and services in International Classes 5, 41 and 44.

9. Applicant is not affiliated with or sponsored by Autonomic Technologies, and has never been authorized by Autonomic Technologies to use any of the AUTONOMIC Marks or any of Autonomic Technologies' other marks in any form.

10. Autonomic Technologies' AUTONOMIC Marks were well-established long before the first use date, if any, of Applicant's AUTONOMIC ADVANTAGE mark, the filing date of Applicant's subject application, and any other date on which Applicant may

rely for purposes of priority, including at the time that Applicant first used its mark and at the time that Applicant filed the subject application.

11. Applicant's proposed mark AUTONOMIC ADVANTAGE is confusingly similar to Autonomic Technologies' AUTONOMIC Marks.

12. Specifically, the goods "electrotherapy devices for providing transcutaneous electrical nerve stimulation, infrared heat and compression" in International Class 10, covered by Applicant's AUTONOMIC ADVANTAGE application, Application Serial No. 86/816,074, are related to the medical devices for treating and managing neurological disorders and neurostimulators Autonomic Technologies offers under its AUTONOMIC Marks.

13. In view of the similarity of the respective marks and the related nature of the goods and services of the respective parties, Applicant's AUTONOMIC ADVANTAGE mark so resembles Autonomic Technologies' AUTONOMIC Marks as to be likely to cause confusion, or to cause mistake, or to deceive as to source by suggesting that Applicant's Class 10 goods originate or are associated with, or are approved, endorsed, affiliated, authorized, licensed, or sponsored by, Autonomic Technologies.

WHEREFORE, Autonomic Technologies prays that registration of Class 10 of Applicant's Application No. 86/682,207 for the AUTONOMIC ADVANTAGE mark be refused, and that this Opposition of those Class 10 goods in Applicant's Application be sustained in favor of Autonomic Technologies.

Dated this 1st day of September, 2016.

Respectfully submitted,

By: /Rita E. Kline/
